How does it work?

Commerce signs a contract with its customer for a "periodic charge" authorization of his card.

1.

2.

Commerce generates and sends a collection file through an SFTP mailbox.*

Transactions with payment information and card details are processed.

3.

4.

Commerce receives a report with results of its collection.

How can I get it?

Submit your application and documents to your executive.

GP will confirm whether your application has been approved. You will receive an email with your login credentials and inputs.

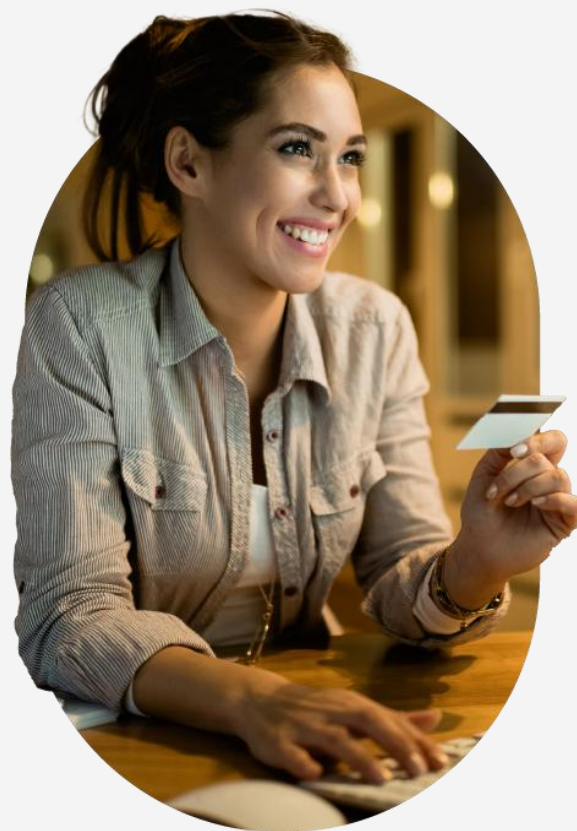

Integration testing and training will be carried out.

Certification is carried out (testing in a productive environment).*

Release of the platform "Recurrent charges".

*General process for contracting certain Web Pay PLUS platform modules. Consult with your Payment Technology Specialist.
